Work Experience

Financial Data Analyst | iGATE Technologies – Islamabad

May 2025 to Sep 2025

- Developed multiple Power BI dashboards to analyze B2B sales, revenue trends, and overall financial results.
- Performed cohort and retention analysis using Python to identify repeat customers and revenue patterns.
- Conducted MoM, QoQ, and YoY financial analysis to support budgeting, forecasting, and strategic decision-making.

Projects

DCF Valuation – WACC Model | [View Project](#)

- Built an Excel-based WACC model using 5 peer comparables, Beta regression, and CAPM for valuation analysis.
- Computed a final WACC of 20.04% using target capital structure with structured assumptions and output tabs.

Income Statement Insights | [View Project](#)

- Built an interactive Power BI income statement dashboard tracking revenue, COGS, EBIT, and net income KPIs.
- Delivered YoY variance analysis and division-level profitability breakdowns to support data-driven decisions.

Accounting Cycle – Financial Statements | [View Project](#)

- Prepared a full accounting cycle in Excel from journal entries to Income Statement, Balance Sheet, and Cash flow.
- Reconciled PKR 1.6M assets, PKR 700K in sales, and PKR 114,750 net profit, ensuring a fully balanced balance sheet.
